EXTEND YOUR VISION

of what a vehicle camera solution can be

StreetEagle LiveCam® 360 Vehicle Camera

A groundbreaking 360°-view camera that combines video capture, tracking and vehicle security into one easy-install device

Want to hear something truly amazing? InSight's **most technologically advanced vehicle camera solution** to date is also its most *affordable* – and with a simple peel-and-stick, one cable installation, it can be up and running in record time. But don't let all this simplicity fool you: this camera is nothing short of revolutionary in terms of what it can do to protect your drivers, vehicles and reputation.

In fact, LiveCam 360's sleek, SEMA® award-winning* product design and "low profile" form factor (doesn't obscure drivers' view while on the road) deliver a high level of sophistication in an easy to use, unobtrusive package. If you're looking for an advanced, affordable camera that can provide video capture capability AND vehicle security with unprecedented scope and accuracy, this is the device for you!

Flip sheet over to review some of the unique features and benefits of the LiveCam 360 vehicle camera...

What makes the LiveCam 360 such a unique vehicle camera?

LiveCam 360 is much more than just a sleek, compact design, and it's much more than your average dashcam. No other camera on the market today provides 360-degree views inside AND outside the vehicle, protects your vehicle against security threats, and features internal radar, GPS and 3-axis accelerometer. "360" means total visibility, security and protection.

360° visibility

A single lens provides truly seamless, 360-degree views in and around your vehicle

Total vehicle security

Fusion of radar, 3-axis accelerometer and GPS provide intelligent event detection for your parked vehicle

Simple installation

Peel-and-stick windshield installation with just one cable – and, it can be portable (plugged into cigarette lighter)

Night vision

IR LED's help the LiveCam 360 see in low light conditions, even in the dark

4G LTE connectivity

High-speed 4G bandwidth delivers live alerts and provides the ability to monitor vehicle in real-time from any location

Unobstructive design

Compact form factor and easy windshield mounting means device won't block your drivers' view of the road

Location tracking

Built-in GPS technology provides location data to find your vehicle immediately

Smart power management

Low-power sensors "sleep with one eye open," protecting an unattended vehicle

Monitor vehicle activity/security from anywhere

LiveCam 360 users can view live or archived video clips from inside or outside of the vehicle, and review driving or vehicle security violations, remotely via the StreetEagle mobile app.

Now, fleet owners and managers can be anywhere and be able to:

- View video of events in multiple modes (split screen or 360° view)
- Access archived event footage
- Receive alerts on vehicle driving and security events
- Stream live video from in and around vehicle from any location
- Get an immediate update on any vehicle's location
